

Project 4 Example - Brambleton Theater

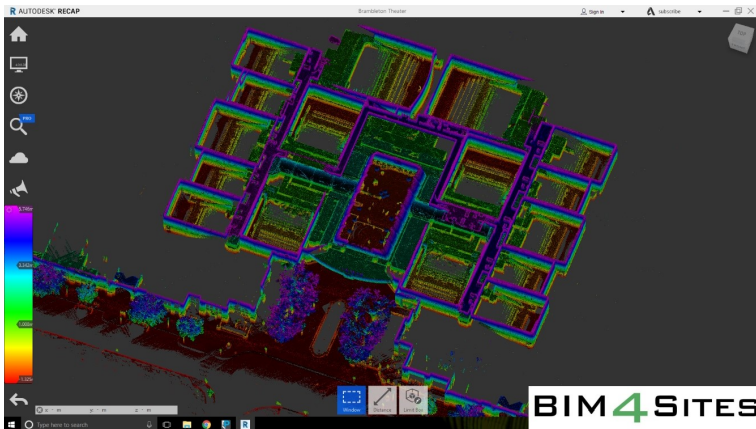

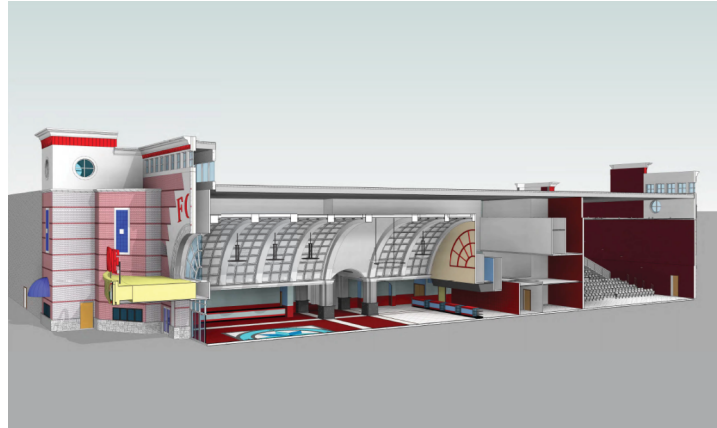

Project Name: Brambleton Theater

Project Size: 72,000 sq ft

Deliverables: Revit Model, Virtual Tour, 3D Point Cloud, 360 Imagery

Field Time: 2 hours

Delivery Time: 2 weeks

Project Overview: How do you get data in a busy and complex theater without interrupting operations and with the ability to create a full Revit model? With the iMS 3D. Full detail and 360 images captured in no time, in one site visit, allowed us to create an incredible Revit model fast! No interruptions to site operations and no revisits. The architects now have total confidence to create their redesign.

Benefits of BIM4Sites Approach:

- Unmatched field collection speed
- Complete 3D documentation
- Bonus: 360 Imagery + Virtual Tour
- One site visit. No revisits.
- Accurate and detailed model
- Fast turnaround
- Low cost
